When in your life was a lesson learned the hard (painful) way?

Study the Bible

Daniel chapter four is one of the more unusual chapters of the Bible. It was written by a king in Babylon, a nation that didn't believe in the one true God.

Describe what the king had heard and seen from the Jewish leaders about their God? (1:19-20; 2:27-28, **37-38**, 44-45, **47**, 3:25, 28-29)

What do you notice about the king's attitude and thoughts? What was the final "straw" that caused him to be dethroned?

How do you see God's leadership and grace?

What were the king's final actions and conclusions?

Discuss Together

Much of Daniel is about the character of God.

What characteristics stand out in this chapter? How is this relevant in our journey in our world?

What can we learn from the journey of the king? Are there points of connection for us today?

How is the influence of the Jewish believers seen in this chapter? What might we learn about influence in our worlds?

Pray

- Please pray for Pastor Jim visiting our teams in Europe and our team in Thailand serving those who serve in Asia.
- Pray for people who are learning about God in your world.
- Pray for the Trinity family to be known for compassion and truth.

Apply It This Week

Pray for one person that you think is watching you to learn about God. Look for opportunities to connect with them this week.
